TUCK'S POST CARD

CARTE POSTALE. POSTKARTE.

By Appointment.

The Fleete. The streets in the older part of the important Port of Hamburg have frequently a canal running through the centre, the roadways partaking of the nature of a series of quays. These streets are generally known as the Fleete, and owing to the picturesque nature of the old houses found therein, many a quaint and interesting scene presents itself to the tourists through this district.
